Location: Denver, CO

PROFILE

I am a recent SecureSet graduate where I was immersed in the world of information security for 20 straight weeks (800+ hours). I enjoy the challenges of protecting assets and endpoints against ever evolving threats. I am motivated to secure a career in the information security industry to further develop my skills and knowledge. My github has an overview of my time and curriculum at SecureSet.

SKILLS SUMMARY

Excellent communication, organization and troubleshooting skills
Experienced in identifying potential threats and vulnerabilities in network systems
Experience in analyzing and understanding cyber threat intelligence
Knowledge of network security, system security, logs and detection, cryptography, threat intelligence, strategy and analysis and GRC
